3. The candidate's height will be measured as follows:—He will be placed against the standard with his feet together, and the weight thrown on the heels and set on the toes on outer side of the feet. He will stand erect without rigidity, and with the back, elbow, buttocks and shoulders touching the standard; the chin will be depressed to bring the vertex of the head level under the horizontal line, and the height will be recorded in inches and parts of an inch to quarters.

4. The candidate's chest will be measured as follows:—He will be made to stand erect with his feet together, and he will raise his arms over his head. The tape will be adjusted round the chest just in upper edge between the inferior angle of the shoulder-blades to back, and its lower edge the upper part of the axilla in front. The arms will then be lowered to hang loosely by the side and care will be taken that the axilla adducts are at three right angles at back and as on to reduce the tape. The candidate will then be directed to take a deep inspiration several times, and the maximum expansion of the chest will be carefully noted.

The minimum and maximum will then be recorded thus in inches  $\frac{1}{4}$  or  $\frac{1}{2}$  etc.

In recording the measurements, fractions of less than half an inch should not be noted.

5. The candidate will also be weighed and his weight recorded in pounds. Fractions of a pound should not be noted.

6. The procedure for determining the minimum of vision includes two tests—one far distant, the other for near vision. The Army Test Type will be used for the test for distant vision, without glasses, at a distance of 50 feet, and for the test for near vision without glasses, at any distance selected by the candidate. The standards of the minimum acuteness of vision with which a candidate will be measured are as follows:—

## STANDARD I.

Right eye.	Left eye.
Distant vision.—V = 20.	V = 40.
Near vision.—Rounds 0, 6.	Rounds 0, 6.

## STANDARD II.

Remarks. When eye V, without glasses or not below 400; and after correction with glasses = not below 5/12.

Near vision.—Rounds 0, 6. Rounds 1.

## STANDARD III.

Remarks. When eye V, without glasses or not below 400; and after correction with glasses = not below 5/12.

Near vision.—Rounds 2, 6. Rounds 1.

Each eye must have a full field of vision as tested by hand movements.

Spinal or any marked condition of the eye as of the lids of either eye liable to the risk of degeneration or squint will cause the rejection of the candidate.

Each eye will be examined separately, and the lids must be kept wide open during the test.

Inability to distinguish the principal colours will not be regarded as a cause for rejection, but the fact will be noted in the proceedings and the candidate will be informed.

The degree of acuteness of vision of all candidates for commission will be entered in the proceedings in the following manner:—

V.R. = ... with glasses = ...; Rounds ...

V.L. = ... with glasses = ...; Rounds ...

No notation of the standard of vision will be allowed.

7. The following additional points will then be observed:—

(a) That his hearing is good and there is no sign of ear disease;

(b) That his speech is without impediment;

(c) That his teeth are in good order. He must have ten sound teeth in the upper jaw functionally opposed to ten sound teeth in the lower jaw. Two of these teeth in each jaw must be molars. Well-filled teeth will be considered as sound;

(d) That his throat is well formed and that his larynx and hoarse are sound;

(e) That he is not ruptured;

(f) That he does not suffer from a severe degree of varicose or venous veins. A candidate who has been successfully operated on will be accepted;

(g) That his hands are well formed and dexterous;

(h) That there is free and perfect motion of all the joints;

(i) That his feet and toes are well formed;

(j) That he does not suffer from any venous or skin disease;

(k) That he has no congenital malformation or defect;

(l) That he does not bear scars of previous acute or chronic disease pointing to an impaired constitution.

\* Some candidates are defined as follows:—

(1) When the name of entry is an agent that he brought down in front of the tent when the candidate is ready to go.

(2) If he is a soldier in a post, he is called that the tent is kept at a level distinctly lower than normal, of course, allowing for the fact that the tent is usually at a lower level than the ground.

(3) If he is a soldier in a post, he is called that the standard is not marked at less than half of the height of the ground on the north side.

(4) The candidate's name shall only be considered a qualification when entered within the official sheet on the returned map.

No. 173.—The following resolution of the Government of India is reproduced:—

## DEPARTMENT OF COMMERCE

### Imports.

Bombay, 26th May 1927.

No. 6827.—The Assam Saw Mills and Timber Company, Limited, and the Assam Railways and Trading Company, Limited, have requested the Government of India to refer to the Tariff Board for enquiry the question whether the pig wood and tea chest industry in India should be protected.

2. There was no import duty on tea chests and lead sheets for tea chests until 1916. A duty of 7½ per cent was imposed in 1916 for revenue purposes, and this was raised in 1922 to the present rate of 15 per cent. It was then recognized that the increase of duty would considerably assist the manufacture of tea chests in India, but no measure was given by the Hon'ble the Commerce Minister in the Legislative Assembly that as increase of duty would not have been proposed for protective purposes without a previous investigation by the Tariff Board.

3. Imported tea chests and lead sheets for tea chests are extensively re-exported as substitutes for Indian tea and etc. they assumed to a extent of seven-eighths of the import duty under Chapter VI of the new Customs Act, provided that they are confined to the satisfaction of the Collector of Customs and that the re-export is made within two years from the date of importation. Such substitution may sometimes be possible, but would cause much trouble and delay both to the customs administration and to the re-exporter. In view of the special circumstances that tea chests and lead sheets for tea chests are re-exported for the purpose of substitution re-export, the imposition of a revenue duty may be open to objection.

4. The Government of India have therefore decided to refer the following questions to the Tariff Board:—

(1) Whether, having regard to the principles laid down in the resolution adopted by the Legislative Assembly on the 26th February 1925, the pig wood and tea chest industry should be protected;

(2) If so, in what form, and for what period protection should be given;

(3) If not, whether, in view of the fact that tea chests and lead sheets for tea chests are extensively imported for the purpose of re-export, the existing import duty of 15 per cent should be increased.

6. Plans and papers submitted, who desire that their views should be considered by the Tariff Board, should address their representations to the Secretary Tariff Board, Calcutta, before the 15th June 1927.

Port St. George, June 16, 1927.
